9 (b). Resolution on allocation of the Company's profit or loss according to the adopted balance sheet

14. Resolution to authorize the Board of Directors to resolve on issues of shares or convertibles

The Board of Directors proposes that the Annual General Meeting resolves on authorization for the Board of Directors to, on one or more occasions until the next Annual General Meeting 2027, resolve on new issues of shares or convertibles against payment in cash, payment in kind or by set-off or subject to other conditions and also with the right to deviate from the shareholders' preferential right.

The purpose of the authorization and the reason for the deviation from the shareholders' preferential rights is to enable the raising of capital for strategic initiatives and for the Company's operations, as well as to strengthen the Company's shareholder base with strategic and long-term investors who contribute to the Company's long-term value creation and development. The proposed authorization provides the Board of Directors with the necessary flexibility to, when needed, quickly carry out a capital raising in the form of a new issue of shares or convertible instruments, thereby enabling the Company to efficiently execute new initiatives or meet arising needs in the business.

The authorization shall be limited whereby the Board of Directors may not resolve to issue convertibles and/or shares that implies the issuance of or conversion into shares corresponding to more than thirty (30) percent of the total number of shares in the Company at the time of the first issue resolution based on the authorization. To the extent that a new issue is made with deviation from the shareholders' preferential right, the issue shall be made at market terms.

For a decision in accordance with this proposal, the resolution must be supported by shareholders representing at least two-thirds of both the votes cast and the votes represented at the meeting.

15. Resolution on authorization for the Board of Directors to carry out synthetic repurchases of own shares

The Board of Directors proposes that the general meeting authorize the Board of Directors to prepare and implement a program for synthetic repurchases of own shares, whereby the Company, on one or several occasions during the period until the next Annual General Meeting 2027, may carry out synthetic repurchases of own shares corresponding to a maximum of ten (10) per cent of all shares in the Company after each acquisition. Synthetic repurchases of own shares may be affected at a price per share within the prevailing price range for the Company's share on Nasdaq First North Growth Market at the relevant time. For this purpose, the Company shall enter into agreements or other arrangements enabling the redemption of shares on terms that are fair to all shareholders. The counterparty to such agreements or arrangements may be offered the opportunity to have redeemed up to the number of shares underlying the agreement or arrangement. A resolution to redeem shares covered by the program shall be adopted by a subsequent general meeting.

The purpose of the proposed authorization to synthetically acquire own shares is to enable an improvement of the Company's capital structure and thereby contribute to increased shareholder value in the Company.

For a decision in accordance with this proposal, the resolution must be supported by shareholders representing at least two-thirds of both the votes cast and the votes represented at the meeting.

16. Resolution regarding adjustment authorization
